ARMY TRAINING MANAGEMENT CYCLE

METL DEVELOPMENT PROCESS

- Uses the wartime operational mission and other inputs to METL development to focus the unit's training on essential tasks.**
- Provides a forum for professional discussion and leader development among senior, subordinate, and adjacent commanders concerning the linkage between mission and training.**
- Enables subordinate commanders and key NCOs to crosswalk collective, leader, and individual tasks to the mission.**
- Leads to “buy-in” and commitment to the organization's training plan by unit leaders.**

INPUTS TO METL DEVELOPMENT

METL DEVELOPMENT FUNDAMENTALS

~~Mission Essential Task List (METL) Development~~

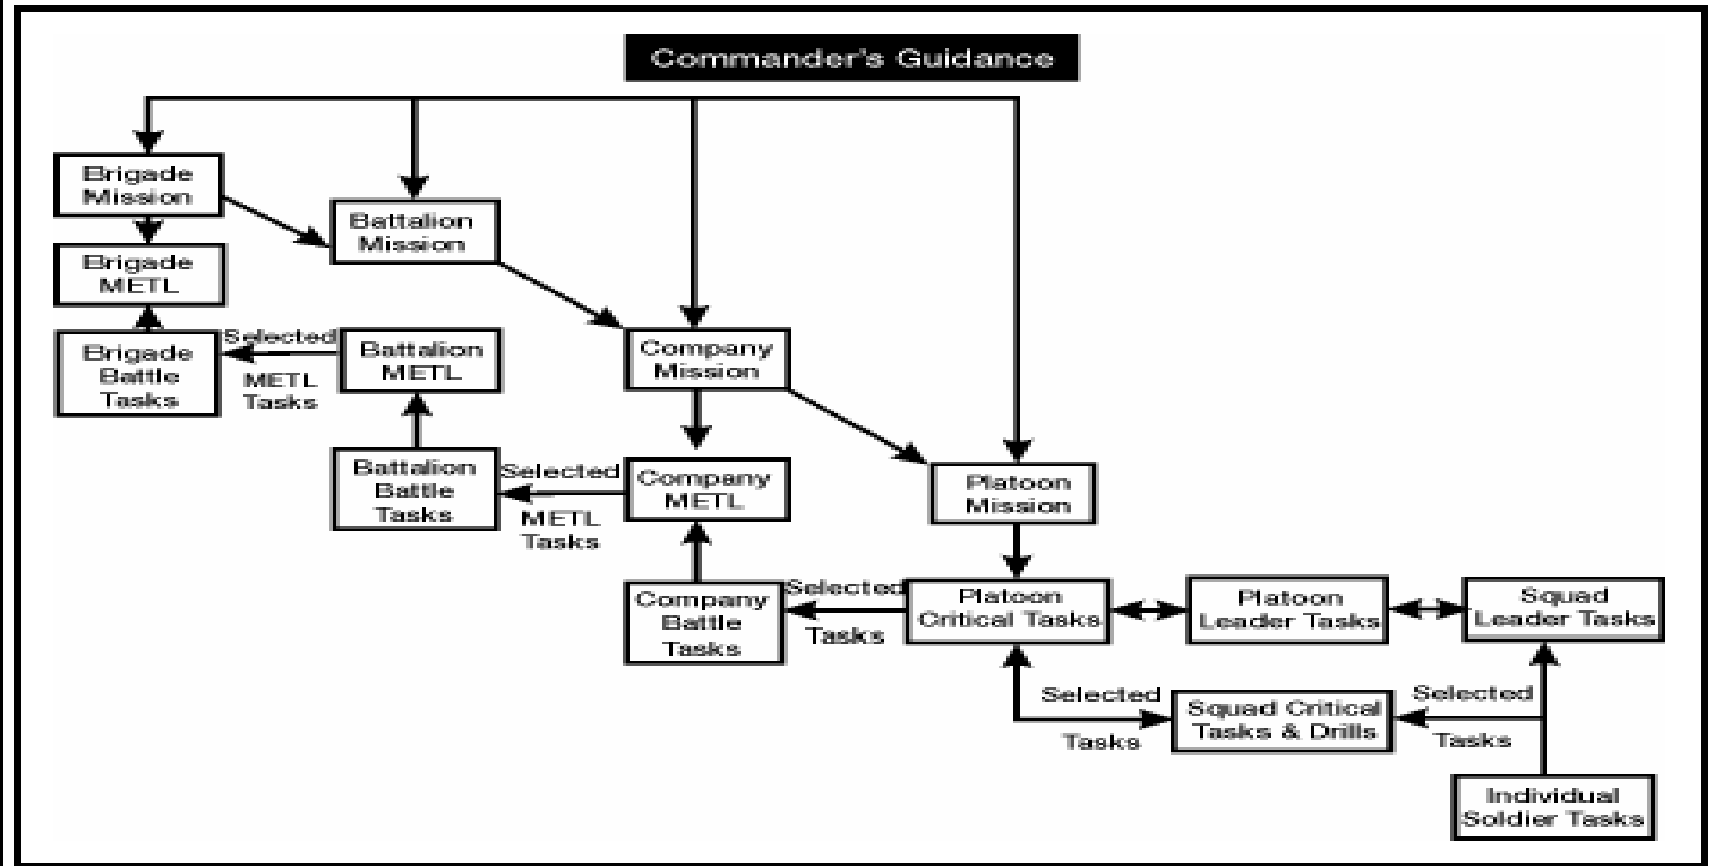

Fundamentals are:

- **Derived from the organization's war plans and related tasks in external guidance.**
- **Applied to the entire organization (METL does not include tasks assigned solely to subordinate organizations).**
- **Supportive and complement the METL of higher headquarters or the supported unit.**
- **Not affected by the availability of resources.**
- **Not prioritized, therefore all tasks will not require equal training time.**
- **Commanders' direct operations which integrate the Battlefield Operating System (BOS) through plans and orders.**

BATTLE TASKS

- **Integrate the battlefield operating systems (BOS).**
- **Receive the highest priority for resources, such as ammunition, training areas, facilities (to include live and virtual simulators and constructive simulations), materiel, and funds.**
- **Receive emphasis during external evaluations.**
